Re: Revisions to 2004 Risk Adjustment Training Materials

The 2004 Risk Adjustment Training Participant Guide and accompanying presentation slides are now available. Periodically revisions to these documents will be based on updated policies, technical information, or other enhancements, as necessary. CMS will provide these revisions to you periodically via www.mcoservice.com. Registered users of www.mcoservice.com will be notified via email when revisions are posted.

A revision is considered an update to a page in the 2004 Risk Adjustment Training Participant Guide or to the accompanying presentation slides. These revisions represent a complete reissue of a page or slide; all changed information is incorporated.

Beginning in October, the attached table entitled, "Revisions to 2004 Risk Adjustment Training Materials," will be posted. This table provides a detailed listing of all changes made to the training materials. This table will identify the revision version and effective date. When revisions are issued, only the revised pages or slides are changed. Revised pages and slides will be numbered with the appropriate revision version identified, e.g., Page 2-7 A. It is not necessary to reprint the entire module or section of slides, rather you need only print the changed page/slide from the PDF file.

If you have any questions, please contact Angela Reddix at areddix@aspensys.com.
