CONNECT:DIRECT NETWORK MAPPING VALUES

The state will require the following parameters in order to set up Connect:Direct tables to allow connectivity to Palmetto GBA. Palmetto GBA uses RACF security to enforce data security and will provide a User ID and Password to the state during the connectivity testing phase.

NAT'd IP Address:	158.73.33.160
Listener Port:	1369
Node ID:	SCA.A70NDM.MC
System Platform:	OS390 - z/OS
AGNS ID:	PGBA

State Connect:Direct Parameters

Please provide the parameters Palmetto GBA will need in order to establish connectivity to the state.

NAT'd IP Address:	
Listener Port:	
Node ID:	
System Platform:	<input type="checkbox"/> OS390, z/OS <input type="checkbox"/> AS/400 <input type="checkbox"/> Windows, UNIX, or Server
AGNS ID:	

If the state requires a User ID and Password to access their system, please provide these parameters in the table below.

User ID:	
Password:	

Please provide the contact information CSSC Operations will require in order to coordinate the setup and testing.

Technical Contact Name:	
Phone Number:	
Email Address:	

PALMETTO GBA CONTACT INFORMATION

Please contact the CSSC Operations Help Desk with any questions using the following contact information:

Phone Number – 1-877-534-2772

Email Address – cssoperations@palmettogba.com

(Please include “State Question” in the subject line)
